

### **S1. Identification of the Material and Company**

<b>Product name:</b>	Bead Lysis Tubes
<b>Product number:</b>	800-1000
<b>Compound name:</b>	Not applicable
<b>Common name:</b>	Not applicable

**Manufacturer:**

**BioGX**

1500 1st Ave N, Unit 34  
Birmingham, AL 35203

**Telephone Number:**

+1 (205) 250-8055

**E-mail: info@biogx.com**

The following SDS is for the final finished product only as used in the laboratory.

### **2. Hazards Identification**

<b>Appearance:</b>	This product contains 1 part – a screwcap tube containing glass beads and buffer.
<b>Signal Word:</b>	<b>CAUTION</b>
<b>Hazard Overview:</b>	The glass bead and buffer components as contained in the tube will not present a hazard under normal use conditions; if tube is broken or damaged and the components are spilled or released, contact may cause reversible skin and eye irritation or if repeatedly contacted may cause an allergic reaction in some cases.
<b>Statement of Known Hazard:</b>	This product would not be considered hazardous under normal conditions of use.
<b>EU Indicator of Danger:</b>	Not applicable
<b>EU Risk Phrases:</b>	Not applicable

### **3. Composition Information on Ingredients**

This product contains glass beads and a buffer in a screwcap sealed tube.

All ingredients of the Bead Lysis tubes are either non-hazardous under US and EU regulations or GHS guidelines and/or at concentrations less than 1% in the mixture.

### **4. First Aid Measures**

The following first aid measures are good practices for any chemical exposure.

<b>Eye:</b>	Flush thoroughly with water and notify supervisor and Environmental, Health, and Safety (EHS) personnel. If an irritation develops, get medical aid.
<b>Skin:</b>	Flush thoroughly with water and notify supervisor and EHS personnel. If an irritation develops, get medical attention.
<b>Ingestion:</b>	If swallowed, wash out mouth with water provided person is conscious. Never give anything by mouth to an unconscious person. Get medical attention. Do not induce vomiting unless directed to do so by medical personnel.
<b>Inhalation:</b>	Remove to fresh air and get medical attention for any breathing difficulty.

### **5. Fire Fighting Measures**

<b>Flammability/Explosiveness:</b>	None of the components are considered flammable or explosive.
<b>Extinguishing Media:</b>	CO <sub>2</sub> , multipurpose dry chemical or vaporizing liquid fire extinguisher.
<b>Special Fire Fighting Procedures:</b>	Wear full protective clothing and a self-contained breathing apparatus with a full facepiece operated in the pressure demand or other positive pressure mode for surrounding fire. Decontaminate all equipment after use.
<b>Hazardous Decomposition Products:</b>	None known.

### **6. Accidental Release Measures**

If the product/material is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment. For small spills, wear

gloves and absorb spill with paper towel. Dispose of material according to local, State, and Federal waste disposal regulations (see Section 13).

For larger spills, wear personal protective clothing to minimize exposure such as an over-garment, gloves, and eye protection (goggles). Cover spill with absorbent material. Collect spilled material, absorbent, and rinse waters into suitable containers for proper disposal in accordance with applicable local, state, or Federal waste disposal regulations (see Section 13).

## **7. Handling and Storage**

**Handling Precautions:** Avoid skin contact, eye contact and inhalation.

**Storage Requirements:** Store according to product labeling.

## **8. Exposure Controls/Personal Protection**

<b>Occupational Exposure Limits:</b>	None of the ingredients contained in this product have occupational exposure limits established by OSHA, NIOSH, or ACGIH.
<b>Engineering Controls:</b>	None normally required. When practicable, handle material in enclosed or contained processes or in processes with effective local exhaust ventilation.
<b>Eye Protection:</b>	Wear safety glasses with side shields, chemical splash goggles, or full-face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face.
<b>Respiratory Protection:</b>	None normally required. When possible, handle material in enclosed processes or containers. If it is properly handled with effective ventilation or containment, respiratory protection should not be needed.
<b>Skin Protection:</b>	Rubber gloves are recommended to minimize potential for skin contact. In laboratory setting, wear lab coat or other protective over garment to minimize skin contact. Base the choice of protection on the job activity and potential for skin contact.
<b>Other:</b>	Facilities storing or using this product should be equipped with an eyewash station and a safety shower. Wash hands, face and other potentially exposed areas immediately after handling material (especially before eating, drinking, or smoking). Decontaminate all protective equipment after use.

## 9. Physical and Chemical Properties

<b>Physical State:</b>	The components are solid glass beads in liquid buffer contained within a sealed tube.
<b>Odor:</b>	Components are odorless.
<b>Vapor Pressure:</b>	Minimal.
<b>Evaporation Rate:</b>	Minimal.
<b>Viscosity:</b>	Not applicable.
<b>Boiling Point:</b>	Not applicable/solid.
<b>Freezing/Melting Point:</b>	No data identified.
<b>Solubility:</b>	The glass beads are not soluble in aqueous solutions.
<b>pH:</b>	7.9-8.1

## 10. Stability and Reactivity

<b>Chemical Stability:</b>	Stable under normal temperatures and pressures.
<b>Conditions to Avoid:</b>	Incompatible materials.
<b>Incompatibilities with Other Materials:</b>	Strong oxidizing agents, peroxides, strong acids and bases, acid chlorides, acid anhydrides, alkali metals, ammonia.
<b>Hazardous Decomposition Products:</b>	Carbon monoxide, carbon dioxide, nitrogen oxides, and sulfur oxides.
<b>Hazardous Polymerization:</b>	Will not occur.

## 11. Toxicological Information

**Acute Toxicity:** The sealed tube contains glass beads in buffer, which should not present an acute toxicity hazard unless released or spilled.

**Irritation/Sensitization:** No data identified on ingredients.

**Repeated dose toxicity** – No data identified on ingredients.

**Reproductive (fertility) and Developmental (birth defects) toxicity** – No data identified. None of the ingredients are considered reproductive or developmental toxicants.

**Mutagenicity and Carcinogenicity** – No data identified on mutagenicity. None of the ingredients are listed by NTP, IARC, or OSHA as carcinogens.

## 12. Ecological Information

**Eco toxicity:** No data identified.

**Environmental Fate:** No data identified.

### **13. Disposal Considerations**

Consult your institution's environmental waste personnel on proper disposal of chemical products per local, state, and federal regulations. Institutions outside the USA should check their country hazardous waste disposal requirements.

### **14. Transport Information**

Transport in accordance with all federal, state, and local transportation regulations. All of the ingredients are not regulated by US DOT or IATA.

### **15. Regulatory Information**

**US OSHA:** This SDS complies with the requirements under 29 CFR 1910.1200. No hazard labeling is required under US hazard communication regulations.

#### **Canada – WHMIS Classifications**

This product is not classified as hazardous according to WHMIS classification criteria.

#### **California Proposition 65**

None of the ingredients are listed under California Proposition 65.

#### **SARA 313: CERCLA: RCRA:**

None of the ingredients are listed under this regulation. None of the ingredients are listed under this regulation. None of the ingredients are listed under this regulation.

**For R&D consumers, products are to be used only for R&D purposes.  
For LUO consumers, products are to be used only for LUO purposes.**

### **16. Other Information**

No other data available.
